

WANTED

ADAM.

HUMAN KIDNEY

\$1,000,000 REWARD

DESCRIPTION: They are the master chemists of the body. Normally, there are two of them, each reddish brown in color and shaped like kidney beans. Each kidney is about the size of your clenched fist. Many other organs depend on the kidneys in order to work properly.

JOB: to remove wastes from the blood and return the cleaned blood back to the body. They regulate water, remove wastes and produce hormones.

LOCATION: There are two, one on either side of the spine under the lower ribs.

COLLEAGUES: The Excretory System, Endocrine System, Urinary System

POTENTIAL PROBLEMS: Kidney Failure, Kidney Stones, Cancer of the Kidney
